1. "TEXTS" Section

- **Content:** Field to define the main text displayed on the bar. You can customize the message for each language.
- **Link of the bar:** URL linked to the bar. When users click on the bar, they will be redirected to this link.

2. "BUTTON / CALL TO ACTION" Section

- **Active:** Enables or disables the call-to-action button. If enabled, a button will appear on the bar.
- **Text:** Text displayed on the button, customizable for each language.
- **Link of the button:** URL the button redirects to when clicked.

3. "COUNTDOWN" Section

- **Active:** Turns the countdown on or off.
- **Text before:** Text displayed before the countdown (e.g., "Only").
- **Date:** End date for the countdown. Once this date is reached, the countdown will no longer display.
- **Text after:** Text displayed after the countdown, typically explaining the nature of the offer (e.g., "left to enjoy this offer!").

1. "LAYOUT" Section

- **Content Spacing:** Adjusts the spacing within the bar.
- **Fixed top:** Option to fix the bar at the top of the page when scrolling.
- **Padding:** Sets padding around the content inside the bar. You can adjust each side individually.
- **Margin:** Sets the margin around the bar.
- **Bar Rounded Corners:** Controls the roundness of the bar's corners.
- **Button Rounded Corners:** Adjusts the roundness of the call-to-action button's corners.
- **Countdown Rounded Corners:** Defines the roundness of the countdown area's corners.

2. "COLORS" Section

- **Background:** Sets the background color of the bar.
- **Text Color:** Defines the color of the text within the bar.
- **Button Text Color:** Sets the color of the text on the call-to-action button.
- **Button Color:** Configures the button's background color.
- **Button Hover Color:** Changes the button's color when hovered over.
- **Countdown Text Color:** Specifies the text color in the countdown area.
- **Countdown Background Color:** Defines the background color of the countdown area.

3. "FONT STYLE" Section

- **Font family:** Allows customization of the font type used in the bar.
- **Font Size:** Sets the size of the text in the bar.
- **Letter spacing:** Adjusts the spacing between letters.
- **Uppercase:** Toggles the text to appear in uppercase letters.
- **Bold:** Toggles bold formatting for the text.

4. "BEHAVIOR" Section

- **Animated:** Enables or disables animation on the bar.
- **Speed:** Sets the speed of the animation if enabled.
- **Pause on hover:** Pauses the animation when the user hovers over the bar.
- **Draggable:** Allows the bar to be draggable by the user.
- **Reversed:** Reverses the direction of the animation.

PANEL VISIBILITY

VISIBLE FROM

01/01/2024 12:00 am

VISIBLE TO

01/01/2029 12:00 am

1. "VISIBLE FROM"

- This field specifies the start date and time when the bar will become visible on the website. If left empty, the bar will be visible immediately.

2. "VISIBLE TO"

- This field sets the end date and time when the bar will stop being visible on the website. If left empty, the bar will remain visible indefinitely.

BOTTOM BUTTONS

SAVE

RESET CONFIG

1. "SAVE" and "RESET CONFIG" Buttons

- **SAVE:** Saves the changes made to the module's settings.
- **RESET CONFIG:** Resets the settings to their default values.
